As a full-stack web developer, I create visually appealing and user-friendly designs that enhance digital experiences. I combine creativity with practicality to develop interfaces that users love and that meet business goals. My skills cover everything from responsive front-end design to reliable back-end development. I focus on user needs, using research and testing to ensure my designs are intuitive and effective. I work well with clients and teams to make sure projects align with their vision and objectives. I stay updated with the latest industry trends, ensuring my designs are modern and relevant. Whether it's building a website, my goal is to deliver high-quality digital solutions that stand out.

E X P E R I E N C E

Full-Stack Web Developer

Strike Zone (July 2, 2023 - Present)

Currently, I am working as a Full Stack Web Developer at Strike Zone, where I continue to build on my previous experience and contribute to the development of cutting-edge web applications. My responsibilities include designing and implementing both front-end and back-end components, ensuring the delivery of high-performance and scalable solutions.

Front-End Development:

At Strike Zone, I leverage my expertise in HTML5, CSS3, SCSS, and Bootstrap to create sophisticated and user-centric interfaces. My JavaScript skills are essential in developing dynamic features and enhancing the overall interactivity of the applications. I prioritize responsive design principles to ensure optimal user experiences across different devices and screen sizes.

Back-End Development:

I continue to utilize PHP for server-side development, working on complex business logic and data processing tasks. My SQL skills are crucial for managing and querying large datasets, enabling efficient data retrieval and manipulation. I am also involved in maintaining and extending existing systems, ensuring their robustness and reliability.

Key Projects and Achievements:

- Led the development of a real-time analytics dashboard, providing clients with valuable insights and data visualization tools.
- Enhanced the security and performance of web applications by implementing best practices and conducting thorough testing.
- Collaborated with cross-functional teams to deliver innovative solutions, contributing to the overall success of the company.
- Continuously updated my skills and knowledge to stay current with emerging technologies and industry trends.

Throughout my career, I have demonstrated a strong commitment to quality, efficiency, and continuous improvement. My experience in both front-end and back-end development has equipped me with a holistic understanding of the web development process, enabling me to deliver comprehensive and effective solutions.
